

Artunio Artist - showcase your music and get booked

Connect with festivals on Artunio, get booked, and perform at events or festival stages abroad.

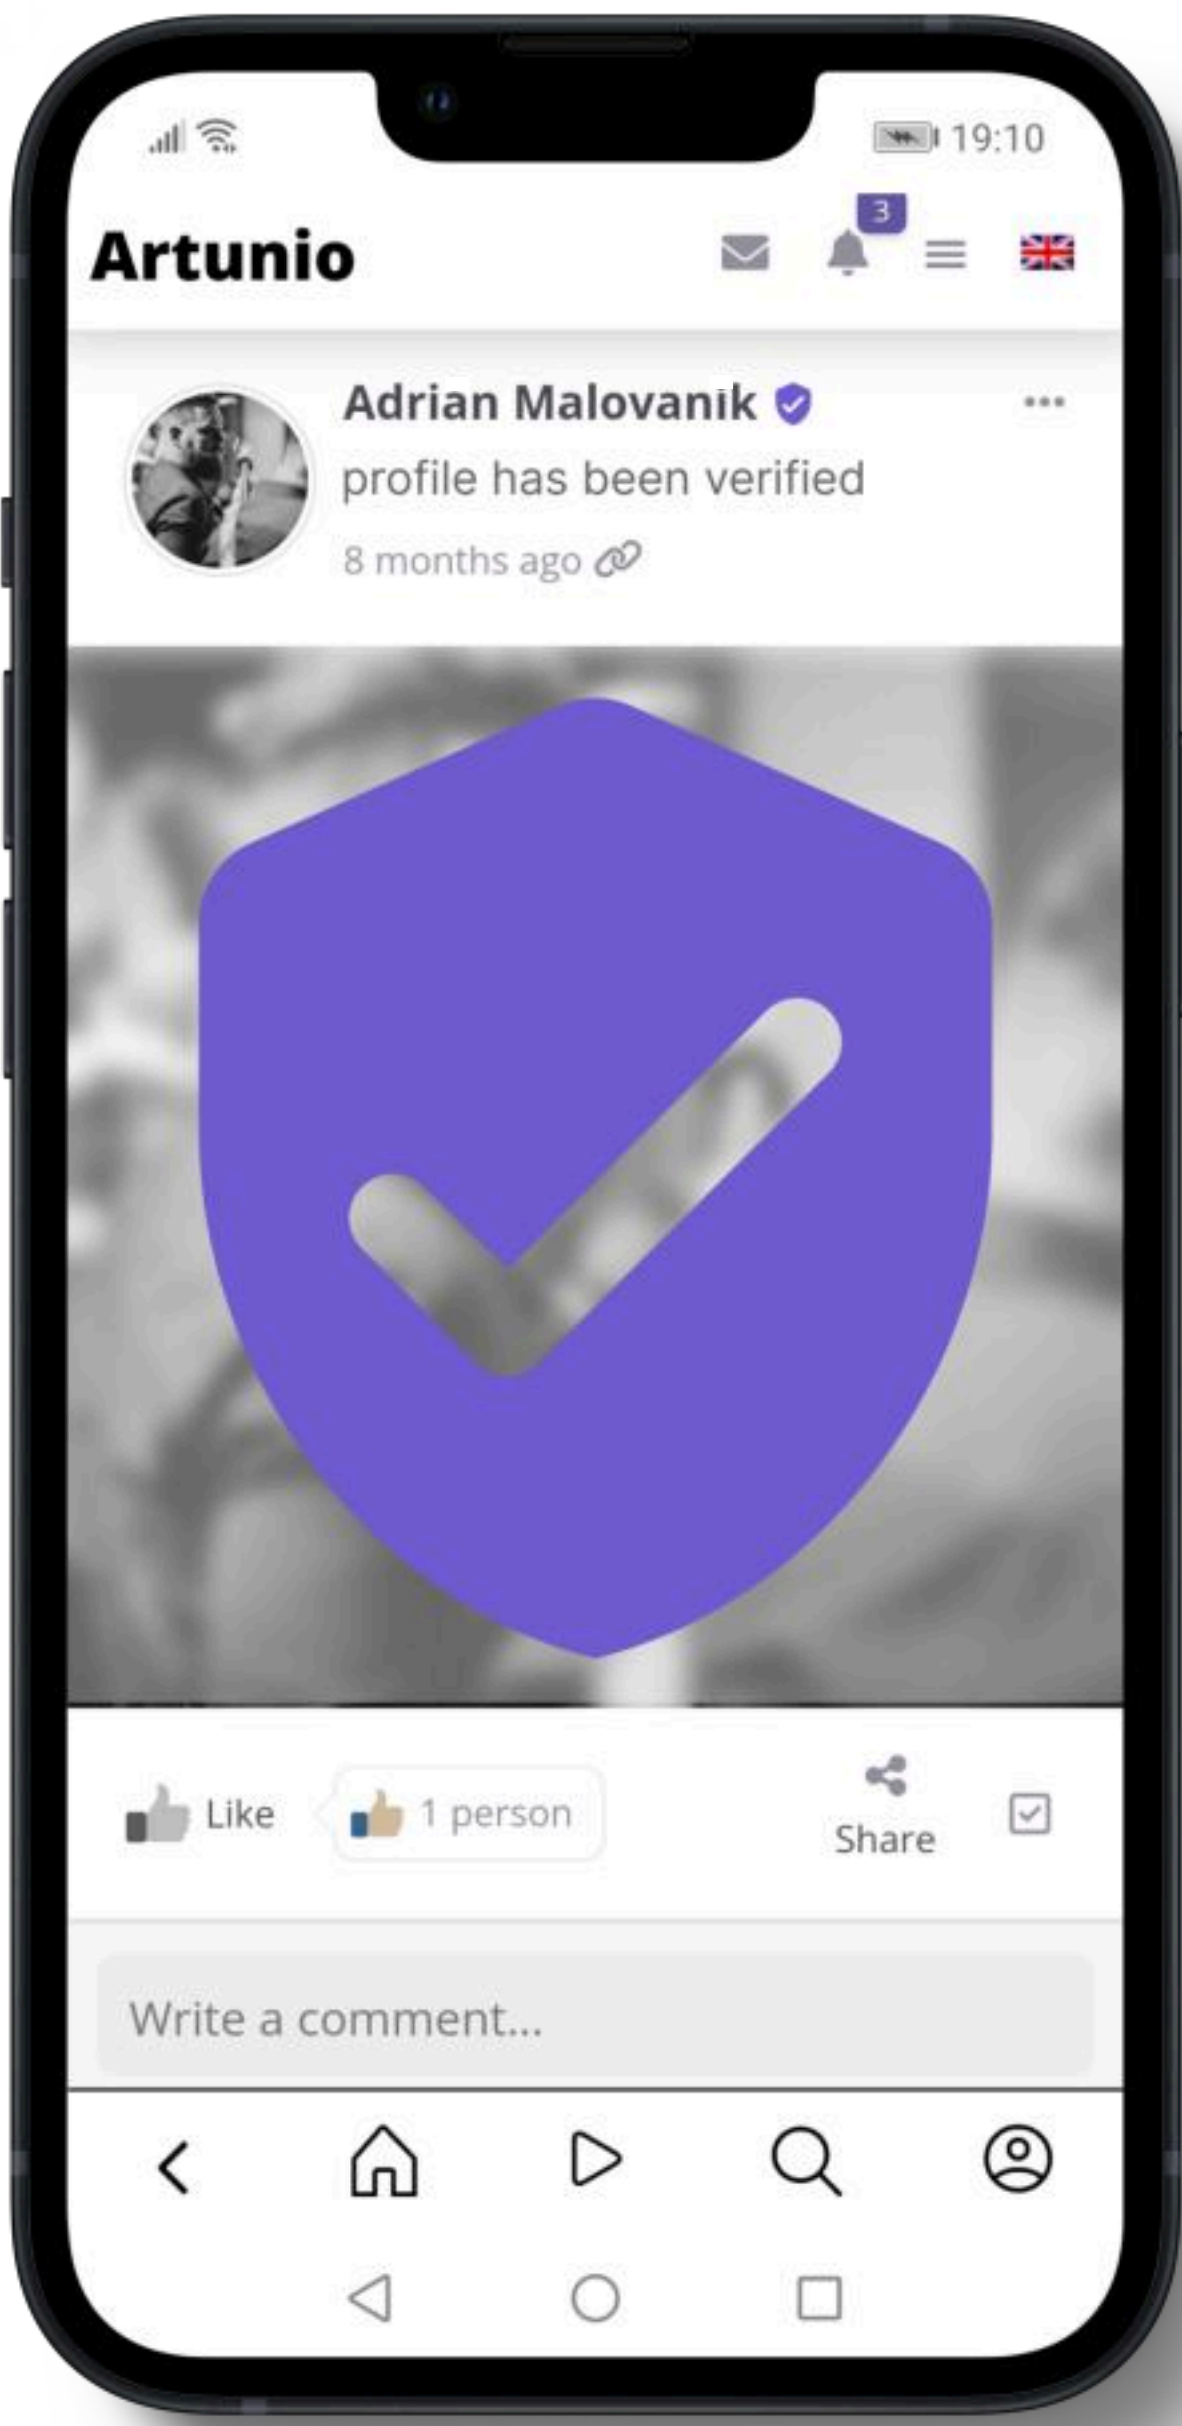

A step-by-step guide through the verification process.

Verification steps:

To receive a “Verified” badge - verified account

- 1. Request verification:** After a successful registration, go into the “About me” section in your profile and click “Request Profile Verification” in the “Profile Verification” field - feel free to watch this video guide.
- 2. Register band members:** Register at least 3 musicians from your band/project, even if the lineup changes frequently. If you don't have 3 band members, register 3 musicians you collaborated with in the past. Musicians already registered on Artunio do not need to register again.
- 3. Complete registration steps:** Make sure the new registered musicians completed all four registration steps. Don't create fake accounts - it is against the guidelines and could lead to a permanent verification ban.
- 4. Connect with them:** Make sure those 3 musicians connected with your band/project profile and then accept the connection.
- 5. Confirm:** The last step is to go into the “About me” section in your profile and click “Verification Steps Completed” in the “Profile Verification” field.
- 6. Confirmation email:** The Artunio Admin team will review your account and send you a confirmation email once your profile has been verified. If any steps are missing, we will inform you about what to improve.

Why it's important to have a verified account

Verification adds a layer of trust, showing that the profile belongs to a legitimate artist, band, or organization

- Verified profiles are more likely to be prioritized in searches by booking managers and festival organizers
- Verification helps reduce fake accounts, ensuring a safer and more authentic community for users
- Verified accounts can post Youtube links to the “videos” section

Promoters and festival organizers are more inclined to engage with verified accounts, knowing they represent genuine artists and bands.

Further steps & information:

To add YouTube videos to your profile, simply send us the links you’d like to attach to info@artunio.com, and we'll add them for you.

If a festival is interested in booking you, either we will reach out to you, or the festival will contact you directly.
